

Past Conference Report- Material Science And Engineering

International conference on material science and engineering .Materials Science and Engineering conference 2019 was one of the most successful conferences in the past and now we again give you people the opportunity to be a part of this conference and share your knowledge cordially, contributing towards the success of the conference in 2019. So, we delightfully invite you to joins us again for Material Science 2020 and share your knowledge and experience on our global platform. It is a study of application of material manufacture or construction. The knowledge domain field of materials science additionally termed materials science and engineering, is that the style and discovery of latest materials, significantly solids. Materials science still incorporates components of physics, chemistry, and engineering. It allows the company representatives to exhibit their products and to have meetings with the scientists in order to increase their business opportunities.

Come to be a part of Exploring of New Materials!!

Scientific Sessions:

1. Green Chemistry in Pharma Industry
2. Computational materials science
3. Nano technology in material science
4. Hybrid polymer-based materials
5. Smart biomaterials
6. Piezoelectric materials
7. Emerging Smart Materials
8. Energy materials
9. Material physics and material chemistry
10. Ceramics and composite materials
11. Graphene and 2D Materials
12. Applications in material science and engineering

This Conference is sorted out by Meetings International. The meeting would offer countless welcomed addresses from prestigious speakers everywhere throughout the nation. The Best paper grants will be given for the papers made a decision to make the most noteworthy commitment to the meeting.

Meetings International on behalf of Organizing Committee Members, Editorial Board Members and Poster Judge congratulates the all attendees for their outstanding contribution in the field of Material Chemistry&Nanomaterial and simultaneously encourage all the participants who tried to put their efforts in poster presentations and wish them success in their future research.
